World Cultures B ●	Kaleidoscope	Learn about how people live in cultures around the world, including the foods they eat, songs they sing, clothes that they wear, and their cultural traditions.	4, 5, 6, 7	Tuesday, Wednesday, Thursday	Varies	Emily Svenson	Kaleidoscope Hancock or L'Anse
World Cultures C ●	Kaleidoscope	Advance your knowledge of cultures around the world as you explore how those cultures developed and what makes them thrive.	8, 9, 10, 11, 12	Tuesday, Wednesday	Varies	Emily Svenson	Kaleidoscope Hancock or L'Anse

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
 <p>Courses with strickthrough are not running for the 2022-2023 school year.</p>							
3D printing/Coding/Lego Robotics ●	Discovery Center	There are so many uses for 3D printing in today's world. Learn to problem solve using 3D printers as a solution. Learn all the steps from designing parts, printing, and maintaining the printers. Coding, It's a 21st century skill that's imperative to almost every industry. But programming isn't just about communicating with a computer – it's also about learning how to think. Kids gain important academic and interpersonal skills as they learn to code, including math and writing, as well as creativity and confidence. Students will use these coding skills to work with and program robots.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Wednesday	9:30	Olivia Stevens	Discovery Center
Acting 101 Developing Character ●	Discovery Center	Picture yourself in a starring role? Looking to add a bit of extra energy to your role playing sessions? Come into focus with a hands-on approach to acting. Learn and play with interactive social games that teach the fundamentals of acting, movement, and focus. This course will require time spent outside of class for memorization and rehearsals for an evening of scenes at the end of the course starring the students! Students will learn the basic fundamentals of acting, articulation, focus and movement. An evening of scenes will be planned based on the number of students who apply. Possible educational field trips to the Rosza Center, McArdle Theatre and the Calumet Theatre to get a detailed view of each theatre.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	9:30	Chelle Roher	Discovery Center
Adventure Trip : Washington DC ●	Discovery Center	Guided week long field trip to our nation's capitol. Trip includes lodging and food and tours of several of the national museums and monuments. Students will visit government buildings and (fingers crossed if we can get tickets, the White House!) All expenses covered for students and a parent chaperone for younger students. Course content before and after the trip will be mostly virtual. Course will be run the end of May. Trip will include 2 stops to natural areas national or state parks.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	May 18-26	May, 2023	Brian Rajdl	Discovery Center
American Sign Language ●	Discovery Center	Learn American Sign Language from a licensed interpreter and speech therapist. Weekly class sessions with workbook for home practice.	K, 2, 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Monday 9:30, Thursday 9:30, Thursday 11:30		Cheyenne Kaufman	Discovery Center
Anatomy of a Comic Understanding Visual Mediums ●	Discovery Center	Everyone knows what a comic book is, but not everyone knows how important they are to our daily lives. From the funnies in newspapers, to storyboards for major motion pictures, this medium is a powerhouse for storytelling in both short and long forms. But what makes a comic? Is it just a series of sequential images, or is there more than what meets the eye? This class will help fill the space between the panels, and help you create your own comics! Students will learn how to make comics, the history of the medium, and the differences in comic styles. Introducing them to the idea of theming, and being able to make artistic choices within those themes. We'll touch on how to set up a platform for their comics, all while expanding their artistic skill sets.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	11:30	Chelle Roher	Discovery Center
Art I Basics ●	Discovery Center	This class will be the beginning of your journey in the wonderful world of Art. We will explore different mediums of art; skills, styles, techniques and how to apply them to our work. We will spend time sketching using pencils, charcoal and tools for shading. We will work on Pop art, cartooning, Monochrome and Grayscale. We will work with both acrylic and watercolor; spending time talking about artists from Leonardo Da Vinci to Kandinsky. Learning different styles and techniques. We will learn to work with clay, the different types of tools and how to use them. Also how to cut, store and dry properly. We will have fun projects with holidays. We will explore different projects using household items. We will learn to follow directions and how to work with one another.	K, 1, 2	Wednesday	9:30	Jessica Porter	Discovery Center

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
Art II Techniques ●	Discovery Center	This next stage in art we will work on techniques of sketching and shading, painting, and learning types of brushes and their unique uses. Some examples of the different sections we will dive into throughout the year: creative art projects made using found items, household items and items found in nature. We will learn unique painting techniques, learn about specific artists, their work and styles, as well as a section on clay to create keepsakes and get our hands a little dirty.	3, 4, 5, 6	Tuesday	9:30	Jessica Porter	Discovery Center
Art IV Open Studio ●	Discovery Center	This class is targeted towards intermediate and advanced art students. In this class students will help direct the chosen projects. Some ideas would be larger scale sculptures and paintings. Utilizing the work space in the wood shop student's will have the opportunity to experiment with abstract painting techniques as well as unique industrial art pieces. We will be looking towards other unique artists and their crafts, the artists we learn about will be determined by the projects selected by the students and will compliment their selection. The scale of project selected will determine how many different projects we will do throughout the year.	7, 8, 9, 10, 11, 12	Wednesday	11:30	Jessica Porter	Discovery Center
Babysitting ●	Discovery Center	This is a comprehensive course for any responsible student who is hoping to take care of younger, less responsible, children. Anyone who is interested in being a nanny, mother's helper, babysitter, or just learning more about children and their development will find this course beneficial! This class will focus primarily on entrepreneurship, safety (for both children and caregivers), and childhood development.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Wednesday	4:00	Nichole Wilson	Discovery Center
Build: Advanced ●	Discovery Center	Time to rock the shop! This course is designed for students who have general knowledge and experience with building and some power tools and want to focus on creating larger, detailed projects. Students will come up with their own project ideas and be assisted as needed through the design and creation process as they hone and refine their abilities and skills on the shop equipment. Most materials needed will be available, though depending on the project some may be required for the student to provide. This will be an ideal environment for learning how to refurbish/fix old furniture as well as creating new things. This class is open to students aged 12+ who have general knowledge and experience with hand and power tool use and safety.	7, 8, 9, 10, 11, 12	Thursday	11:30	Sergio Buonicont	Discovery Center
Build: Intermediate ●	Discovery Center	Bring on the Big Tools! For those that already have some knowledge and experience with hand tool usage but want to expand their skills and learn new ones, this class will delve into how to use power and shop tools. A series of guided projects will showcase the various shop equipment as students learn how to take raw materials and shape them into usable components. An understanding of design elements and material properties will develop as students learn how to build things that fulfill specific requirements for weight, stability, functionality, and aesthetics. A variety of finishing and joining techniques will be introduced during the course of the year. Example projects we will build include a small coffee/reading table with a drawer/cabinet, a wall or standing lamp, a stool or chair, small bookshelf, and a sled. Materials for the projects will be provided in class. This class is open to students aged 10+ who have basic knowledge and experience with hand tool use and safety.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	1:00	Sergio Buonicont	Discovery Center

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
Build: Beginning ●	Discovery Center	<p>Begin exploring the creative Building arts and learn how to safely use basic hand tools and crafting techniques! Students will work on a series of ready-to-assemble projects that will develop safe building practices, hand tool proficiency, understanding of material properties/uses, and mechanical function. Skills such as wood burning and carving/engraving will be introduced as well, with each project designed to take one or two class periods to complete. Example projects include building game boards, a wooden storage chest, a cutting board, a mechanical candy/snack dispenser, pinewood derby car creation and race, and model bridge construction and testing. Alternative projects will be available for any students who already completed a similar one during previous enrollment in the class. Materials for the projects will be provided in the class.</p> <p>This class is designed for those with little or no experience and open to all ages.</p>	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	9:30	Sergio Buonicont	Discovery Center
Cooking I Basics ●	Discovery Center	Students can expect to experience a wide array of flavors and ingredients while learning kitchen safety and different cooking techniques. We will cover everything from how to clean dishes, how to hold a knife, to making pizza, cookies, stir fry, and more. We will discuss where our food comes from, growing gardens, and how we can support local food initiatives (in an age appropriate manner!) Students will gain kitchen confidence and embrace their culinary creativity.	K, 1, 2	Tuesday	1:00	Noah Aschauer	Discovery Center
Cooking II Beginner ●	Discovery Center	Students can expect to experience a wide array of flavors and ingredients while learning kitchen safety and different cooking techniques. We will cover everything from how to clean dishes, how to hold a knife, to making pizza, cookies, stir fry and more. We will discuss where our food comes from, growing gardens, and how we can support local food initiatives. Students will gain kitchen confidence and embrace their culinary creativity.	3, 4, 5, 6	Tuesday	11:30	Noah Aschauer	Discovery Center
Cooking III Intermediate/Advanced ●	Discovery Center	Students will refine their cooking skills while experiencing a wide array of flavors and ingredients. We will cover more technical cooking methods while always maintaining our foundational cooking and safety skills. We will discuss where our food comes from, growing gardens, and how we can support local food initiatives. Students will gain more kitchen confidence and embrace their culinary creativity.	7, 8, 9, 10, 11, 12	Tuesday	9:30	Noah Aschauer	Discovery Center
Creative Writing ●	Discovery Center	Do you like to make up stories? In this class, students will experience the full process of planning, drafting, revising, and editing a written story (or stories) of their own creation. Free-writing exercises will help writers to unlock their creative potential and access their imaginative mind. Students can then choose to expand on exercises done in class, or work entirely from their own imagination to draft, revise, and edit a finished publishable story. At the end of the year, final drafts of the students' choice will be published in a new Discovery Center student chapbook, which will be made available to the DC community and families. if you took creative writing last school year you may take the class again at a more advanced level.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	1:00	Olivia Stevens	Discovery Center
Digital-Video ●	Discovery Center	Experience all aspects of digital video production: write, direct, film, edit, and even star in your very own movie! Students will plan and design a video project of their own choosing, either individually or with a small group. Students will be responsible for all aspects of video production, including scripting, casting, directing, filming, and editing. Students may act in their own films, in each others' films, and/or invite friends and family to star in their productions. Students may create videos in the genres of their choice; some examples of genres students could choose to work with include documentary, journalistic, creative film (fictional narrative), music video, etc.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Wednesday	2:30	Olivia Stevens	Discovery Center
Dioramas and Miniature Painting ●	Discovery Center	Paint extravagant miniatures from heroes and monsters to household and farm animals. Create tiny furniture and build elaborate pieces for play and display on a peasants budget. Learn the basics for building structures using materials found outside or around the house. Many skills learned will transfer into real life structures such as foundation work and very simple masonry. As well as proper layering and finishing work for painting that again will transfer over to real world trade skills. Pairs well with D&D.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	2:30	Ernie Beutler	Discovery Center

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
Discover DC I 	Discovery Center	<p>Sample 4 different course from 4 different instructors in 7 week blocks. This Discover DC course will include: Photography - This 7 week version of Hands on Digital Photography will include weekly hands-on projects to learn about photography. We will learn basic use of a camera as well as photographic techniques to think about when creating photographs. This is a perfect class for beginners! Hand Drumming - Do you love rhythm? Experience the empowering energy and healing connection created within the drum circle. Traditional circle styles will be introduced including call-and-response and multi-part rhythms. Learn basic hand-drumming techniques and learn to read and play simple rhythm notation. The class will explore both traditional African drum rhythms as well as freestyle and improvisational drumming styles in classic drum circle format. All experience levels welcome! Spanish - learn the basics of Spanish with our fluent Spanish teacher. Sing, and play games as you learn a new language! Capoeira - "I am the master who learns, and the disciple who teaches."</p> <p>Come play the game of Capoeira! Created in the Portuguese slave colonies of Brazil, this martial art is a fusion of dance, music, song, and play that celebrates Indigenous Brazilian and African culture and the fight for freedom from oppression. Through playing the game one learns balance, control, confidence, camaraderie and how to creatively deal with problems that present themselves. This introductory course will guide the beginner through the basics of the movements and the music, and how to express oneself through their movement and control of space.</p>	K, 1, 2	Tuesday	11:30	Madelyn Zaycheck, Jake Tenharnsel, Olivia Stevens, Sergio Buoniconti	Discovery Center

The class will explore both traditional African drum rhythms as well as freestyle and improvisational drumming styles in classic drum circle format. All experience levels welcome! Capoeira -- "I am the master who learns, and the disciple who teaches."</p> <p>Come play the game of Capoeira! Created in the Portuguese slave colonies of Brazil, this martial art is a fusion of dance, music, song, and play that celebrates Indigenous Brazilian and African culture and the fight for freedom from oppression. Through playing the game one learns balance, control, confidence, camaraderie and how to creatively deal with problems that present themselves. This introductory course will guide the beginner through the basics of the movements and the music, and how to express oneself through their movement and control of space.</p> <p>Art -- This next stage in art we will work on techniques of sketching and shading, painting, and learning types of brushes and their unique uses. Some examples of the different sections we will dive into throughout the year: creative art projects made using found items, household items and items found in nature. We will learn unique painting techniques, learn about specific artists, their work and styles, as well as a section on clay to create keepsakes and get our hands a little dirty.</p>	3, 4, 5, 6	Wednesday	4:00	Varies	Discovery Center

Discover-DC III ●	Discovery Center	<p>Sample 4 different courses from 4 different instructors in 7 week blocks. This Discovery-DC course will include: City of Mist: Egyptian Mythology-The City Museum has had a string of burglaries recently where objects of Egyptian historic value have mysteriously vanished. Officials are stumped and so the Museum has hired you and your private investigation crew to discover what happened to these artifacts and return them. Is this the work of a clever burglar, an inside job, or are there more mysterious powers at work? It's up to you to discover the secret! — Students will learn a new, narrative driven game system that relies on words and descriptors as the mechanic of the game, learning problem solving and investigation skills that will aid them in uncovering the secret of the missing Egyptian artifacts all while learning the Myths and Legends of Egypt. Poetry: Think you can't write a poem. Think again. In this class we will look at different kinds of poetry that are being written today. Think Haiku is counting syllables – wrong! You will learn what haiku and other forms are in today's world. Think poetry can't be fun? We will look at different ways of experimenting with poetry. Find your voice! Curling is a team sport, played on ice, where two teams take turns sliding stones made of granite towards a target known as a house. Here is a great 2 minute overview of the sport of curling: https://worldcurling.org/about/curling/. Puppetry 101 – Puppets come in all shapes, sizes and colors and many of the most popular puppets have been created with nothing more than household objects used in a variety of creative ways. This class will focus on how to design, build and perform with your creations in the same way that Jim Henson got his start; the creation of a music video with your puppet as the star.</p>	7, 8, 9, 10, 11, 12	Wednesday	2:30	Varies	Discovery Center
Dungeons and Dragons I & II ●	Discovery Center	<p>HEAR YE HEAR YE!! Calling all would be adventurers!! Step outside of yourself and into a world of fantasy and adventure the likes of which you have never seen! Where might, magic, and mystery run deep. Journey to a place where your word can seal a deal or cast fantastic spells of all kinds! Half a million gold pieces are hidden somewhere in Waterdeep, one of the largest metropolises on all of the Sword Coast. Many people know about the cache, but no one knows where it is. Armed with a few trustworthy friends and a promising lead from the world famous adventurer VOLO himself, our adventurers set off on a heist set in an urban background. A grand caper awaits you! Pit your skill and bravado against legendary villains and become the legendary heroes of Waterdeep! Let the Hunt begin!</p> <p>No experience necessary. Some reading skills will help but are also not necessary.</p>	K, 1, 2, 3, 4, 5, 6	Thursday	11:30	Ernie Beutler	Discovery Center

Esports ●	Discovery Center	<p>Welcome to the world of eSports!</p> <p>"We've known for a long time that bringing students' passion for games into a supportive, educational environment can be transformative for kids who otherwise might be disengaged or left behind." - Mason Mullenieux, co-founder and CEO of HSEL(High School eSports League)</p> <p>Competitive video gaming, known as eSports, is a rising phenomenon in modern life. Cultivating skill sets that are similar to traditional sports, eSports challenges players to develop a wide array of abilities. Competitive gaming encourages Teamwork, Adaptability, Communication, Self-Confidence, Strategic Thinking, and Social-Emotional regulation all built within a framework of modern technical knowledge and proficiency. The validity and legitimacy eSports have gained in recent years is apparent in the wave of scholarships that are now available at most Higher Educational Institutions (MTU, NMU, and Finlandia University all offer eSports scholarships). This class will prepare students for the exciting world of eSports and set them up to flourish in the future of modern society. They will build their player record and knowledge to qualify for potential scholarship opportunities. Players develop confidence and determination as they improve their skills while competing against other players that challenge them. They create and follow strategies, communicate with teammates, and develop strong hand-eye coordination. Students also learn about good sportsmanship and being mindful of their emotional state, which can help them to manage stress in their daily lives.</p> <p>"Esports has tremendous potential, both to inspire students to learn 21st-century skills and also to include many students who have previously been marginalized with respect to competitive activities."- Donald Brinkman, Microsoft Senior Program Manager</p>	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	2:30	Sergio Buonicont	Discovery Center
Intro to Photoshop Making Memes & More ●	Discovery Center	<p>Photoshop is a powerful program for digital artists and photographers. It has so many features that it is very easy to become lost in the program, which can deter even the most talented of artists from wanting to switch to the digital medium. A Meme is an image or series of images with textual overlays, often humorous in nature, that is shared over the internet. Using this visual medium as a focal point, students will learn how to navigate the Photoshop program and the variety of tools it contains.</p>	3-4, 5, 6, 7, 8, 9, 10, 11, 12	Tuesday	4:00	Ghelle Roher	Discovery Center
Keweenaw Adventure Krew ●	Discovery Center	<p>Weekly outdoor adventure sampler. Students will focus and many different outdoor activities and skills in 2-3 week blocks. Activities will include: kayaking, rock and ice climbing, hiking, skiing, camping, canoeing, mt biking, navigation, snowshoeing, river walking, high ropes course, rappelling, fishing, and whatever else the Krew wants to try. Class will be outside every class period in all weather conditions. Be part of the adventure Krew! This clas will run every other week, and will meet for a 3 hour time block.</p>	7, 8, 9, 10, 11, 12	Thursday	2:30	Madelyn Zaycheck	Varies

Knitting ●	Discovery Center	Fiber arts are back in style! If you feel excited about creating something out of simple loops of yarn then this class is for you. We'll learn how to knit, purl, cast on, frog, link, and whatever other skill we need in order to create beautiful works of art! Some of what we create may be useful, some of it may be simply ornamental, and all of it will be done stitch by stitch.	K, 1, 2, 3, 4, 5, 6	Wednesday	11:30	Nichole Wilson	Discovery Center
Life Skills ●	Discovery Center	In theory, most of us know we should be prepared for anything. But the reality is we can sometimes feel woefully unequipped to handle all the curve-balls life throws our way. Life-skill (noun) - A skill that is necessary or desirable for full participation in everyday life. This course will focus on the soft and hard skills necessary to fully participate in life. How to use a saving account, checking account, and debit card, how to use a washing machine, how to apply for a job, how to be there for a friend, how to have difficult conversations, how to fix flat tire. Students will help direct part of the class tackling skills they feel they need to learn. Here is a good list of essential life-skills. https://www.livingwellsendingless.com/48-life-skills-everyone-learn/	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	11:30	Nichole Wilson	Discovery Center
Martial Arts Intro to Weapons ●	Discovery Center	This class is an introduction to martial arts weapons. It's intended for demonstration only. Students are required to have at least 7th gup/yellow belt with black stripe to qualify. Students will choose a single weapon to train with and must continue until competent, only able to change weapons with instructors permission. This class is not part of regular training and can only be attended if students are in a traditional class.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Tuesday	2:30	Dan Choczyszyk	Discovery Center
Martial Arts for Beginners ●	Discovery Center	Description: The students will be introduced to the Korean style of martial art, Tae Kwon Do. Students will work on flexibility, agility, and specialized movements to learn this art of self defense. This form of martial art works the mind as well as the body. Each student will learn the necessary techniques to advance to the next level.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Tuesday	11:30	Dan Choczyszyk	Discovery Center
Martial Arts for Novice ●	Discovery Center	Description: The students will continue advancing in the Korean style of martial art, Tae Kwon Do. Students will work on flexibility, agility, and specialized movements to learn this art of self defense. This form of martial art works the mind as well as the body. Each student will learn the necessary techniques to advance to the next level. Open to students that have attained yellow belt.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Tuesday	1:00	Dan Choczyszyk	Discovery Center
Music Lessons Drums ●	Discovery Center	Group music lessons, Kit or Hand drums. Students will learn about different types of drums and drum sets (drums will be provided) along with rhythm, beat, syncopation, traditional and new drum rhythms. Drum lessons will be available Thursday mornings	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Thursday	TBD	Jenny Fritz	Discovery Center
Music Lessons Guitar and Ukulele ●	Discovery Center	Music class aims to provide your son or daughter with a strong basic understanding of guitar or ukelele. I work with your students to provide a fun, child driven approach to music. We explore different genres and figure out what makes them excited to learn about music. I really enjoy the journey that a student takes with music. I want to encourage them to share their talents as they progress. I teach at a beginner level with any age child and can teach some intermediate lessons, but focus on the beginner and the introduction to learning how to play an instrument.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Tuesday, Wednesday	9:30	Mickey Hawkins	Discovery Center
Music Lessons Piano ●	Discovery Center	Learn to play the piano from very basic to advanced for all ages and skill levels. Lessons will include but are not limited to: Learning scales, songs, finger exercises, music theory, method, technique, and sight reading sheet music.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Wednesday, Thursday	9:30	Jake Tenharmel	Discovery Center

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
Nature and Survival ●	Discovery Center	Break through the wall of green, you too can become a naturalist! Most of us are really tourists in our own back yards. This class will guide students how to learn and understand the landscape around them through observation, journaling, and nature based play. Is it possible to live off the land? The old ways are still alive. Learn the art of building shelter, purifying water, making fire, gathering food, hunting and trapping skills, and how to wear the wilderness mind. This is not "Man vs. Nature" but based on truly understanding your surroundings so you can live with it. Strong emphasis on being prepared for wilderness outings so kids can prevent becoming lost and even needing their new survival skills.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Friday	9:30	Brian Rajdl	Varies
Photography ●	Discovery Center	My students will be completing weekly hands-on projects to learn about photography while creating art. As part of the class their favorite images that they create will be processed and printed so that by the end of the class each child will have a portfolio to be proud of! A perfect class for beginners or more advanced photographic students.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Wednesday	9:30	Vadelin Zaycheck	Discovery Center
Project Based Learning ●	Discovery Center	A long (3 hour) course where students will be engaged with projects and problems, along with structured play time and learning time. Students will spend extended time with other students creating that strong class social group. Students will have input in class projects. Parents may choose this course along with other Tuesday electives and may drop their student off for the day. The instructor will get your little one to their other electives throughout the day and keep them engaged during times where they do not have another class.	K, 1, 2	Tuesday	Varies	Nichole Wilson	Discovery Center
Quality Quests ●	Discovery Center	A weekly field trip to local areas or guest speakers with accompanying activities at The Discovery Center. Students will be introduced to an eclectic array of knowledge and activities and experiences. (We have run a class similar to this in the past called Festival Fridays, examples of past field trips and activities were: a tour of the post office, a tour of the a fire hall, local musician performances, magic and juggling performance.)	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Monday	9:30	Theresa Shebby	Varies
Rock Climbing: Advanced ●	Discovery Center	The goal for this class is to climb as much as possible and provide a space for students to become more independent climbers! Before taking this class, your student should be able to tie a figure 8 knot correctly the first time, be able to properly put on their own harness and helmet, be able to perform a safety check on their partner, and belay comfortably and confidently. We plan to do more work on climbing technique, gear management and identification, repelling, aid climbing, and beginning lead climbing by practicing gear placement and anchor building. Your student will need permission from the instructor(s) to take this class. Climbing class will have several full day climbing trips. Instructors are AMGA certified Single Pitch Instructors and Wilderness First Responders.	7, 8, 9, 10, 11, 12	Monday	1:30	Brian Rajdl	Varies
Rock Climbing: Beginner ●	Discovery Center	The students will learn the fundamentals of climbing through lessons and practice in technique, communication, gear management, and safety as a climber as well as a belayer and team member. The students can expect to do physical activity in some form every class period (outside on real rock and ice when weather permits, or climbing at the Discovery Center or MTU SDC when it doesn't). In addition to technical skills, students will learn how to work through challenges (both mentally and physically), how to problem solve, how to work as a team, and how to measure risk. Climbing class will have several all day fireldrrips. Instructors are AMGA certified Single Pitch Instructors and are Wilderness First Responders.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Monday	2:30	Brian Rajdl	Varies
Sewing I Beginner ●	Discovery Center	Beginning Sewing will be an early introduction into the skills of sewing. We will be working through the tools, definitions and techniques with a progression of fun projects. The majority of the projects will be hand sewn items. Students will also be introduced to machine sewing basics with assistance.	K, 1, 2	Thursday	1:00	Theresa Shebby	Discovery Center

2022-23 CLK Virtual Partnership Course Catalog

Class Offered	Organization	Course Summary	Grades	OLE Day	OLE Time	Instructor	OLE Location
Sewing II Intermediate ●	Discovery Center	Intermediate sewing students will work through a series of projects to build fundamental skills, confidence, and a love of sewing. The majority of the class projects will be completed on a sewing machine with partial assistance when needed. Some examples of potential projects are: library tote, pillow case, bedside stuff keeper, notebook and pencil holder, beanbag stuffies, bowl cozy, apron, quilt block, hot pads, water bottle holder, zippered pouch, and many more options added each year for variety! Class projects will be adjusted as needed for students that have taken intermediate sewing and are taking it again.	3, 4, 5, 6	Tuesday	1:00	Theresa Shebby	Discovery Center
Sewing Open Studio ●	Discovery Center	Our open studio sewing course is designed to support the budding sewist as they navigate through the concept, design, material selection, pattern research, and construction of student chosen projects! This class would be perfect to dive a little deeper into specific aspects of sewing that the student wishes. Some possibilities would include (but not be limited to); quilting, garment construction, sewing for sale, sewing for charity or even sewing gifts! Students should have already completed at least one year of intermediate/advanced sewing classes and be able to independently read a pattern. Students will have access to a variety of sewing machines as well as sergers for the completion of their projects.	7, 8, 9, 10, 11, 12	Tuesday	1:00	Theresa Shebby	Discovery Center
Spanish A ●	Discovery Center	Learn to speak a new language! Learn that basics of spanish with our fluent spanish instructor.	K, 1, 2, 3, 4, 5, 6	Tuesday	9:30	Jake Tenharmse	Discovery Center
Spanish B ●	Discovery Center	Learn to speak a new language! Learn that basics of spanish with our fluent spanish instructor.	7, 8, 9, 10, 11, 12	Wednesday	9:30	Jake Tenharmse	Discovery Center
STEAM Exploration ●	Discovery Center	STEAM Explorers dive into learning with exploration and hands-on activities! We will investigate many fascinating topics through the lens of Science, Technology, Engineering, Arts, and Math. This is a fast paced class perfect for busy learners. New lessons each week will be introduced from one of the main disciplines. The lessons incorporate a main theme, learning objectives, vocabulary words, real world application discussion, and an experiment, build or art project. Students will work to enhance their problem solving techniques and critical thinking skills by working through the dynamic lessons and materials prepared weekly. Due to the multiple methods of instruction styles and hands on learning within each class, this course is perfect for students who thrive in exploration based learning environments.	K, 1, 2, 3, 4, 5, 6	Tuesday	2:30	Theresa Shebby	Discovery Center
Swimming ●	Discovery Center	Learn basic and intermediate swimming techniques at the Student Development Complex on Michigan's Tech's campus. The class period will be divided into sections based on skill levels. The pool will be available to the families of enrolled students for open swim for the duration of the class time.	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Friday	1:30	Brian Rajdl	SDC
Wild World of Sports ●	Discovery Center	Introduction to different sports available through the MTU SDC including, raquetteball, volleyball, wallyball, badmitton, basketball, track, swimming. Students will recieve a 1 year membersip to the MTU SDC that can be utilized outside of scheduled classs time. Students will learn to ice skate, and curl during the ice season.	3, 4, 5, 6, 7, 8, 9, 10, 11, 12	Friday	10:00	Jake Tenharmse	SDC
Zines! ●	Discovery Center	What is a zine? Whatever you want it to be. Zines are personal and handmade. They are individual copies or multiple copies. Topics are what you are interested in: Music! Poetry! Movies! Dogs! Cats! Anything at all. Students will see examples of Zines that other people have worked on and learn different ways of creating them from paper folding and cutting to make them out of one sheet of paper, to making multiple pages. Techniques can be collage, writing, photography, and more.	7, 8, 9, 10, 11, 12	Tuesday	2:30	Tom Blessing	Discovery Center
